RE: Response to your letter of March 25, 2016

I am responding to your letter asking to set up a meeting with your groups and senior University of Illinois administrators regarding the University of Illinois' Healthcare. The Chancellors, Vice Presidents and I all share similar concerns about the impact of changes that could be coming to our State of Illinois health plan participants. To provide the Chancellors and me with background information and possible recommendations, I have asked Vice Chancellor for Health Affairs, Dr. Robert Barish and Vice President and CFO, Walter Knorr to co-chair an expert Task Force and report back to me on analysis and potential options.

Before I make any decisions on possible next steps, I would like to review the work of the Task Force. I anticipate receiving their information by the middle of June.

Thank you again for your keen interest in this matter.
